School leaders are increasingly having to become more commercially-minded in the running of their schools. Our commercial team can advise you on a wide range of matters including agreeing and terminating commercial contracts; negotiating technology agreements; and protecting your school's intellectual property rights. Getting contracts right will pay-off in the short and long-term, but getting them wrong can be incredibly damaging.

Our commercial services for schools package can help you avoid the pitfalls of entering onerous contractual arrangements with suppliers, and at the same time help maximise value for your school.

### **What's included?**

- Standard terms and conditions for the purchase of goods
- Standards terms and conditions for the supply of services
- Commercial Contracts Handbook – an essential guide on entering into contracts with advice on how to avoid the issues commonly experienced by schools
- A review of up to two commercial contracts for the school (for example, cleaning, catering or photocopying contracts).

All this  
for just **£1,750** plus  
VAT

Prompt, practical and great value for money, we support schools up and down the country.
